Hearing Completed on New Chicago Milk Order

A public hearing to consider a new Federal milk order for Chicago and surrounding areas was concluded May 26. The hearing was called by the U.S. Department of Agriculture. G. Osmond Hyde, Chief Hearing Examiner for the Department, presided; Mrs. Ellen Henderson, Calvin Cobb, and Robert Groene, marketing specialists, represented the Department's Dairy Division, and John Chernauskas and John Donnaud, attorneys appeared for the Department's Office of General Counsel. Cooperatives, proprietary handlers, agricultural economists from universities, farmers and anyone else interested in milk marketing in this area were given an opportunity to present information and views. The hearing opened in Chicago on May 3 and continued there for eight days. It was then held for four days in Milwaukee and five days in Rockton, Illinois.

Cooperative and handler representatives of six existing Federal order markets actively participated in the hearing including a number from Wisconsin who are interested in the Madison, Milwaukee and Northeastern Wisconsin orders. Proposals were made which would include those three areas as well as the Rock River Valley area in a new order covering the Chicago metropolitan area. Another proposal would combine the Northwestern Indiana area with the former Chicago area into one order. A proposal was also considered to combine the Rock River Valley and Quad Cities—Dubuque orders into a single order.

Evidence was presented on all of the provisions of an order but much of it centered around the territory to be included in a new order for Chicago, requirements

Delaware Valley Milk Order to Have Marketwide Pool

All dairy farmers serving the Delaware Valley Federal milk marketing area will be paid uniformly through a marketwide pool starting June 1, the U.S. Department of Agriculture announced.

In a recent mail referendum conducted by Market Administrator L.S. Iverson, 3,492 area dairy farmers voted, and 3,189, or 91 percent of those voting, approved the amended order adopting the marketwide pool and revising some other provisions.

Consumer and Marketing Service officials said the order sets minimum prices to be paid to dairy farmers supplying milk for the Philadelphia, Pa., and Wilmington, Del., metropolitan areas, and for most of southern New Jersey. Prices consumers pay are not set by the order.

Terms of the amended order are identical to those of the April 7 final decision, except for an increase in the fluid milk price to farmers based on recent nationwide hearings.

Under a marketwide pool, all dairy farmers supplying milk to handlers under the Delaware Valley order will be

paid for their milk at a uniform, or blend price. As the order has operated previously under the individual handler pooling arrangement, prices to dairy farmers who sold to different dealers varied according to the use made of the milk by the individual dealers.

With respect to the pricing of milk from sources outside the Delaware Valley market, the amended order includes provisions similar to those in most other orders.

To continue to insure fluid milk (Class I) price alignment with other Federal order markets, the tie to manufacturing milk values will be based on the United States manufacturing milk price series instead of the Midwest condensery series, and supply-demand adjustments in the Class I price will be limited to 20 cents in each of the next six months. The Class I price formula will terminate June 30, 1968.

Still other amendments allow cooperatives to act as handlers on bulk tank deliveries to other Delaware Valley handlers, and revise milk diversion, milk shrinkage, and classification rules.

* Subject to location differentials where applicable. In the case of members of approved cooperatives, these prices are subject to the deductions authorized by the associations. The prices listed do not include any premium payments which may be paid by handlers and which may bring actual payments in excess of the minimum requirements.

HEARING COMPLETED ON NEW CHICAGO MILK ORDER

which plants would have to meet to participate in the pool and the class prices.

Briefs and views are to be filed with the Department of Agriculture by August 1. After that it will issue a recommended decision and invite people interested in an order to submit views and recommended changes. Some time later the Department will issue a final decision and producers will have an opportunity to vote on its acceptance. If a sufficient percentage of those voting approve the order, it will become effective.
